

## SECRET FILM

Turn the PUMA Phone on without your SIM in and watch a handy film showing the stuff that the PUMA Phone can do.

207 303 8274

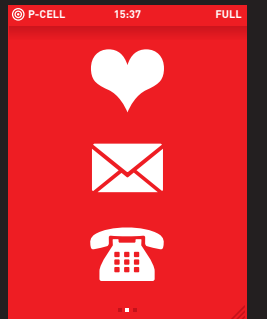

## TWO SIDES

### THE SPORTY SIDE

From your favorites screen go left for sports stuff.

Hold down any icon to add to favorites.

### FAVORITES

Get back here by pressing middle button any time.

To lose a favorite hold down the icon on the favorites menu until it pops away.

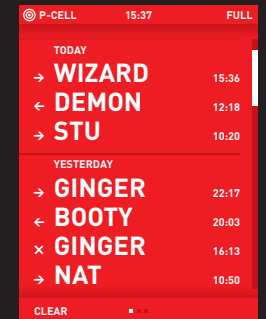

### THE PLAYFUL SIDE

From your favorites screen go right for playful stuff.

Hold down any icon to add to favorites.

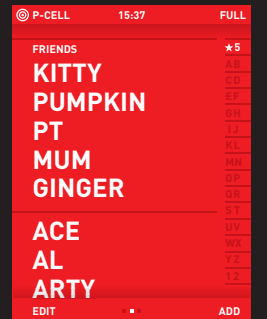

## MAKE A CALL

### CALL LOG

Press the left button (1) to access the call log.

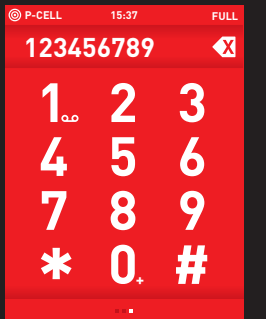

Tap a name and press the left button (1) to call.

### CONTACTS

Go right for your contacts.

Tap a name and press the left button (1) to call.

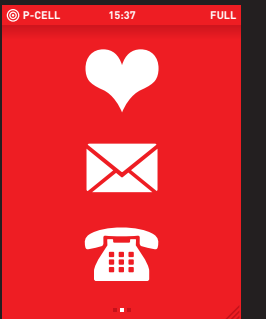

### DIALER

Go right again for the dialer.

Tap in number and press left button (1) to start call. Press right button (2) to end.

## RED CARPET

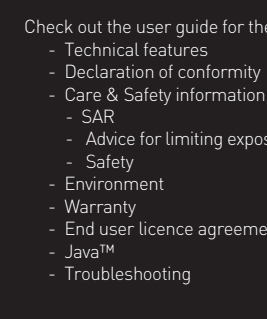

### SETTINGS

Look for the triangle at the bottom right of the screen, this is on most applications.

### QUICK SETTINGS

Pull down the top status bar to quickly change the main phone settings.

## LEGAL STUFF

Check out the user guide for the dull sections:

- Technical features
- Declaration of conformity
- Care & Safety information
  - SAR
  - Advice for limiting exposure to RF fields
  - Safety
- Environment
- Warranty
- End user licence agreement
- Java™
- Troubleshooting

## EXTRA STUFF

The user guide and computer synchronization software are inside the phone memory.

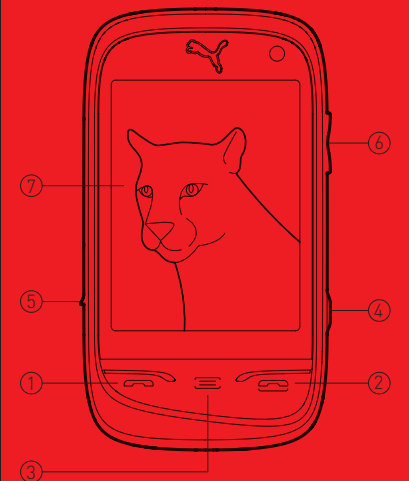

To access them, just connect the PUMA Phone to a computer using the USB cable and follow the instructions on your computer. A bit like a USB stick.

Or you can download them at [pumaphone.com](http://pumaphone.com) where phone updates can also be found.
